#GenerationRestoration Movement Embracing Environmental Responsibilities

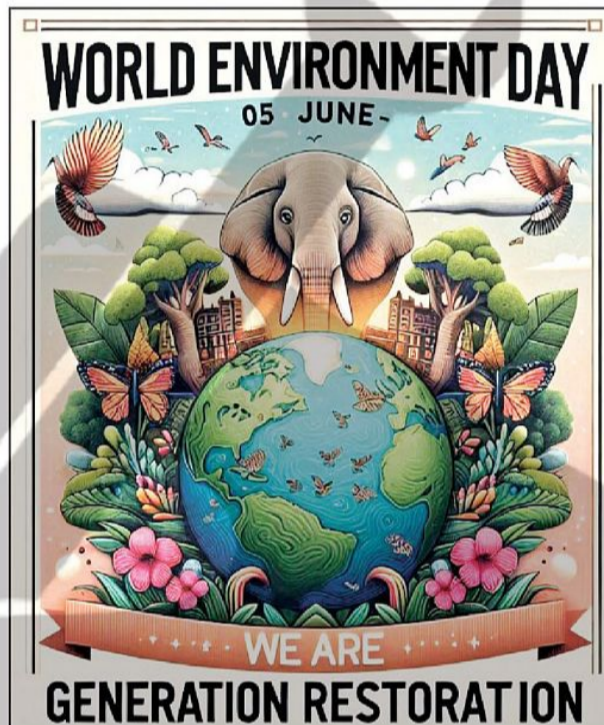

Neha Tripathi

As we mark World Environment Day on June 5th, it's clear that there is a universal concern on the state of environment. However despite the uncertainties, the efforts made over the years have given us hope for the future.

In addressing the imperative of "Our Earth, Our Future," a heightened sense of responsibility is warranted. Our generation is actively engaged in ongoing endeavours to preserve and protect the environment, with the goal of leaving a clean environment for future generations. However, in light of prevailing circumstances, it is imperative that future generations also remain actively involved. They must receive continuous education on environmental conservation, cultivate sustainable habits, and perpetuate these practices over the long term. To launch the UN Decade on Ecosystem Restoration, UNEP has released synthesis report as a call to action for all to join the #GenerationRestoration movement to prevent, halt and reverse the degradation of ecosystems worldwide. This collective endeavour signifies the inception of a "Generation Restoration," wherein successive generations unite to rectify environmental degradation. In undertaking this restoration, a thorough understanding of the current environmental landscape, its associated challenges and possibilities is paramount.

Soaring Temperatures

Scientific reports confirm that global temperature have increased significantly over the past few decades. In 2023 and 24, temperatures in many places have broken

previous records. For instance, temperatures in parts of India exceeded 50 degrees Celsius, while several European countries also experienced unusually high temperatures. This temperature rise is not coincidental but rather the consequence of escalating levels of

greenhouse gases in our atmosphere.

According to scientists, the global average temperature is projected to rise by approximately 1.2 degrees Celsius between 2023 and 2024, leading to a surge in the frequency and intensity of natural disasters, impacting millions of people. Deforestation, pollution, biodiversity loss, and climate change are driving our planet towards destruction. Melting glaciers, rising sea levels, and escalating natural disasters serve as clear indicators that immediate action is imperative. In this regard, Generation Restoration can play a pivotal role.

Every Step is a Challenge

Air Pollution

Air quality in big cities like Delhi, Mumbai and Bengaluru has reached dangerous levels. The levels of pollutants in Delhi's air often exceed World Health Organization standards by several times. Its main causes are vehicular smoke, industrial emissions, and construction activities. Health problems like asthma, bronchitis, and heart disease are on the rise due to air pollution.

Water Crisis

Water crisis is a serious issue in many parts of India. Water shortage is continuously increasing in metropolitan cities like Chennai, Bangalore, and Hyderabad. The main causes of water crisis are excessive water exploitation, uncontrolled use of water resources, and lack of water conservation. Many rivers, such as the Ganga and Yamuna, are vulnerable to pollution, leading to shortage of potable water. Drought conditions in states like

Jyoti Tiwari

As we commemorate World Environment Day, it is crucial to acknowledge the pivotal role of environmental protection in shaping our future. Governments and NGOs globally are amplifying their efforts to safeguard our planet, recognising it as vital for sustainable development and human well-being. From pollution to climate change, environmental challenges span across borders, impacting communities worldwide. Hence, environmental preservation has become a top priority. Environmental Laws lead this charge, as nation states as well as international bodies require robust legal framework to regulate activities and mitigate harm. By addressing current challenges and preparing for future threats, Environmental Laws aim to balance development goals with ecological sustainability.

In India, Environmental Laws have witnessed significant evolution, encompassing diverse

Harbingers of Change Exploring Careers in Environmental Laws

areas such as pollution control, wildlife conservation, climate change mitigation, and environmental impact assessment.

Environmental Laws in India

Amidst a global awakening to environmental concerns, India has undergone a profound transformation in its perception. Once viewed as a hurdle to economic progress, the environment is now revered as a vital ally. This shift, rooted deep in Indian culture, echoes through time, resonating in constitutional mandates, legislative measures, and policy frameworks.

Prior to India's independence in 1947, a nascent framework of environmental legislation existed, laying the groundwork for more comprehensive measures that followed in the wake of the UN Conference on the Human Environment in Stockholm in 1972. It was this landmark event that catalysed the establishment

Unveiling the Ocean's Secrets

A Journey aboard India's RV Sindhu Sadhana

The vast expanse of the ocean holds a multitude of mysteries, its depths teeming with life and resources waiting to be discovered. For India, unlocking these secrets is not just about scientific exploration, but about harnessing the ocean's potential for economic growth and environmental sustainability. A key player in this endeavour is Research Vessel Sindhu Sadhana, India's first indigenously built, full ocean depth research vessel.

Acquired by CSIR-National Institute of Oceanography (CSIR-NIO) in December 2013, the RV Sindhu Sadhana is equipped with cutting-edge sensors and equipment tailored for oceanographic research. Measuring 80 meters in length, 17.6 meters in breadth, and with a maximum draft of 5.8 meters, it boasts ample space to accommodate 29 scientific staff and 28 crew members. With a cruising speed of 13.5 knots, the ship is capable of continuous operation at sea for up to 45 days without interruption.

RV Sindhu Sadhana, meaning "exploration of the ocean" in Sanskrit, is a testament to India's growing prowess in shipbuilding and scientific research. Launched in 2012 and formally dedicated to the nation in 2014, the vessel boasts impressive features. Its 80 meter length, 17.6 meter breadth, and 5.8 meter draft allow it to navigate even the deepest ocean trenches. The ship can accommodate 29 scientific personnel and 28 crew members, providing a dedicated living and working space for extended research expeditions.

The heart of RV Sindhu Sadhana lies in its powerful diesel-electric propulsion system. Four 1150 kW caterpillar diesel generators provide the primary source of power, while a 350 kW harbour generator and a 160 kW emergency generator ensure uninterrupted operation. This robust setup allows the ship to maintain a cruising speed of 13.5 knots and offers an impressive endurance of 45 days at sea, enabling researchers to venture far from the coast and conduct in-depth studies.

A Hub of Scientific Inquiry

One of the most remarkable aspects of RV Sindhu Sadhana is its collection of specialised laboratories. Spread across 250 square meters, these labs are designed to cater to a wide range of scientific disciplines. Two well-equipped wet labs provide a dedicated space for the study of marine organisms and the analysis of water samples. A spacious dry lab serves as a versatile workspace for various research activities, while a computer and data processing lab ensures real-time analysis of collected information. An analytical lab equipped with cutting-edge instruments further empowers researchers to delve deeper into their findings.

RV Sindhu Sadhana is not just a vessel; it's a mobile scientific platform brimming with sophisticated equipment. Single

and multi-beam echo sounders map the ocean floor in intricate detail, while sub-bottom profilers provide insights into the composition and structure beneath the seafloor. Gravity and magnetic field measurements offer valuable data on the Earth's

RV Sindhu Sadhana is aimed at exploring the Indian Ocean

crust and mantle beneath the ocean, while acoustic Doppler current profilers track the movement of water masses. Conductivity-temperature-depth profilers (CTDs) create a comprehensive picture of the ocean's physical and chemical properties at various depths.

Unveiling the Ocean's Treasures

The ship's advanced winches and cranes are crucial for deploying and retrieving a wide range of sampling equipment. A-frame located at the stern side facilitates the launch and recovery of Remotely Operated Vehicles (ROVs), Autonomous Underwater Vehicles (AUVs), and other submersibles, allowing researchers to explore the ocean depths without human intervention. The A-frame located on the starboard side facilitates piston coring operation to collect 24 m long sediment cores. Specialised sampling tools like CTD rosettes, water samplers, grabs, and corers enable the collection of vital data on marine life, water quality, and seabed sediments.

Staying connected amidst the vastness of the ocean is essential for RV Sindhu Sadhana's operations. The ship is equipped with a state-of-the-art communication system, featuring high-frequency, very-high-frequency, and ultra-high-frequency radio telephones. High-speed data links enable continuous communication with shore stations, other ships, and even aircraft. This allows researchers to share real-time data with collaborators, seek

expert advice, and coordinate efforts with onshore support teams.

A Force for Progress: The Impact of RV Sindhu Sadhana

The significance of RV Sindhu Sadhana extends far beyond basic scientific research. The data collected by the vessel has a profound impact on various sectors of India's economy. Deep-water exploration missions facilitated by the ship can help locate new sources of minerals and hydrocarbon resources, contributing to India's energy security. Fisheries research conducted onboard RV Sindhu Sadhana aids in sustainable management of marine resources, ensuring a reliable food source for the nation's growing population.

RV Sindhu Sadhana stands as a symbol of India's growing scientific prowess. Its construction

marked a significant milestone in the nation's ability to design and build sophisticated research vessels indigenously. This not only reduces dependence on foreign technology but also fosters the development of domestic expertise in shipbuilding and marine engineering. The success of RV Sindhu Sadhana has paved the way for future advancements in India's oceanographic research capabilities.

The journey aboard RV Sindhu Sadhana offered a glimpse into the exciting future of Indian oceanography. The dedicated crew and scientists displayed immense enthusiasm and expertise as they conducted their research. The ship's advanced technology allows for the exploration of previously inaccessible regions of the ocean, opening doors to groundbreaking discoveries. Data collected by RV Sindhu Sadhana will contribute to a better understanding of climate change, marine biodiversity, and the intricate relationship between the ocean and the health of our planet.

Looking Ahead: A Brighter Future for Ocean Research

The story of RV Sindhu Sadhana is one of ambition, innovation, and a commitment to unlocking the secrets of the ocean. As India embarks on a journey of deeper exploration, this vessel will play a pivotal role in shaping the nation's future. The data collected by RV Sindhu Sadhana has the potential to revolutionise various sectors, from resource management and environmental protection to

INTERVIEW

Prof. Sunil Kumar Singh
Director, CSIR-National Institute of Oceanography

Can you elaborate on the specific features of RV Sindhu Sadhana that distinguish it as India's premier research vessel, particularly in terms of its capabilities for full ocean depth exploration and its contributions to advancing marine science?

Speciality of RV Sindhu Sadhana lies in its well-designed dry and wet laboratories to cater the needs of the oceanographers dealing with Geology-Geophysics, Physics, chemistry and Biology. This research vessel was designed with long experience of scientists of CSIR-NIO, Goa who have been working for more than five decades using other RVs and hence the Sindhu Sadhana incorporates the best facilities available in many other RVs. It starts with much stable and less noise making diesel-electric propulsion system, specialised winch facilities, gravity and piston coring facilities, multi-corer and seawater sampling facilities. Geophysical instruments, single and multi-beam echo sounders etc. Moreover, It has capabilities to study the entire ocean, right from coast to open ocean.

How has the acquisition of RV Sindhu Sadhana enhanced CSIR-NIO's capacity for conducting oceanographic research, and what significant scientific discoveries or insights have been made possible through its utilization?

Acquisition of RV Sindhu Sadhana in the CSIR-NIO research fleet has truly enhanced its research capabilities multi-fold. It allowed scientists to venture into the open ocean and performed cutting edge science in the open Indian Ocean. It has enhanced our capabilities to look for marine living and non-living resources in any part of the Ocean. Our capabilities to hunt for new resources and minerals such as critical metal important for storage of renewable energy in central Indian Ocean and along the hydrothermal ridges in the Indian Ocean have increased dramatically. It has helped discovering the methane cold seeps and presence of gas hydrates in our EEZ and locating the submarine volcanoes in the Andaman Sea. It is helping us in exploring the niche ecosystem in the Indian Ocean for drugs and nutraceutical from sea programme. It has augmented our capabilities to study the impact of climate change and anthropogenic activities in the Indian Ocean. RV Sindhu Sadhana played a central role in conducting the Genome Mapping of the Indian Ocean programme.

Could you share insights into the collaborative efforts between CSIR-NIO and other national or international institutions in leveraging RV Sindhu Sadhana for interdisciplinary research initiatives or addressing pressing environmental challenges in the maritime domain?

RV Sindhu Sadhana is playing a crucial role in many of the collaborative programmes of CSIR-NIO with Ministry of Earth Sciences, Department of Space etc. It participated in multi institutional programme of Monsoon Mission and will be helping the Department of Space in their Gaganyaan Mission.

technological advancements and economic growth. With continued investment, international collaboration, and a spirit of scientific exploration, RV Sindhu Sadhana promises to be a driving force in propelling India towards a brighter future, not just for itself, but for the entire world.

The impact of RV Sindhu Sadhana extends far beyond the realm of oceanography. The vast data collected by the vessel serves as a valuable resource for a multitude of scientific disciplines. Marine biologists can gain deeper insights into the distribution, behaviour, and conservation needs of marine organisms. Geologists studying the Earth's crust benefit from data on plate tectonics and seabed mineral composition gathered during deep-water exploration missions. Meteorologists leverage information on ocean currents and air-sea interactions to improve weather forecasting models.

India's vast coastline makes it particularly vulnerable to natural disasters like tsunamis and cyclones. RV Sindhu Sadhana plays a crucial role in disaster management and mitigation efforts. The ship's advanced sonar systems can be used to map the seabed and identify potential

hazards like underwater landslides that could trigger tsunamis. Data on ocean currents and wave patterns collected by RV Sindhu Sadhana helps in developing more accurate early warning systems for cyclones, enabling timely evacuation of coastal communities.

Inspiring the Next Generation: Public Outreach and Education

While RV Sindhu Sadhana silently sails the vast oceans, its impact can be felt onshore as well. There's a growing need for public outreach programmes to create awareness about the significance of this vessel and its contribution to scientific progress. Engaging school students through interactive workshops, developing educational documentaries about RV Sindhu Sadhana's missions, and organising open ship days for the public can spark curiosity and inspire the next generation of scientists and oceanographers. By fostering a culture of scientific exploration and environmental consciousness, India can ensure a brighter future for its marine heritage.

Harbingers of Change : Exploring Careers ...

of the National Council for Environmental Policy and Planning, a precursor to the Ministry of Environment and Forests (MoEF) established in 1985. Subsequent constitutional amendments in 1976 entrenched environmental concerns within the fabric of Indian governance, elevating them to the realm of Directive Principles of State Policy and Fundamental Rights and Duties.

Since the 1970s, India has witnessed the proliferation of an extensive network of environmental legislation. Complementing legislative endeavours, the Policy Statement for Abatement of Pollution and the National Conservation Strategy and Policy Statement on Environment and Development have provided strategic direction. The formulation of the Environmental Action Programme in 1993 further underscored the government's commitment to integrating environmental considerations into development agendas.

The Constitution of India provisions for environmental protection under Article 48A and Article 51A(g). Article 48A states that the state shall endeavour to protect and improve the environment and safeguard the forests and wildlife of the country. Article 51A(g) makes it a fundamental duty of every citizen of India to protect and improve the natural environment including forests, lakes, rivers, and wildlife. India has enacted several environmental laws, such as the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Wildlife Protection Act, 1972, and the Forest (Conservation) Act, 1980. These laws are enforced by various regulatory bodies such as the Central Pollution Control Board (CPCB), the State Pollution Control Boards (SPCBs), and the National Green Tribunal (NGT).

Beyond legislative and policy interventions, India has adopted a multi-pronged approach to safeguarding its environmental heritage. Sector-specific policies have been devised, each contributing to the broader tapestry

of environmental protection and preservation.

Career Opportunities in Environmental Laws

Aspiring environmental lawyers have a plethora of opportunities awaiting them. From representing clients in environmental litigation to shaping environmental policies and advocating for sustainable practices, the career scope in Environmental Law is both lucrative and fulfilling. Degree holders can explore diverse career paths in government agencies, corporate sustainability departments, environmental consultancies, and non-profit organisations dedicated to environmental advocacy.

Moreover, pursuing Environmental Law offers several advantages, including affordability, diverse career options, and alignment with global trends. With top-notch institutions offering specialised programmes and a growing demand for environmental law professionals, now is an opportune time to embark on this rewarding career path.

Where to Study Environmental Laws in India?

Many universities and law colleges offer specialised courses in Environmental Law. The curriculum of Environmental Law courses equip students with the knowledge and skills needed to navigate complex environmental legal issues.

Here are some of the top colleges offering Environmental Law courses across various levels of education, based on their rankings in the National Institutional Ranking Framework (NIRF).

National Law School of India University, Bengaluru (NLSIU)

Known for its excellence in legal education, NLSIU offers comprehensive programmes in Environmental Law at undergraduate and postgraduate levels, providing students with a strong foundation in environmental governance and legal principles.

National Law University, Delhi (NLU Delhi)

NLU Delhi is renowned for its focus on interdisciplinary legal studies and offers specialised courses in

Environmental Law, preparing students for careers in environmental litigation, policy analysis, and advocacy.

Nalsar University of Law, Hyderabad

With a commitment to academic excellence and research, Nalsar University offers rigorous programmes in Environmental Law, emphasising practical learning experiences and exposure to real-world environmental challenges.

The West Bengal National University of Juridical Sciences, Kolkata (WBNUJS)

WBNUJS provides comprehensive education in Environmental Law, combining theoretical knowledge with practical training through moot court competitions, research projects, and internships.

Jamia Millia Islamia, Delhi

Jamia Millia Islamia offers specialised courses in Environmental Law, equipping students with the skills and knowledge needed to address contemporary environmental issues through legal frameworks and policy interventions.

Symbiosis Law School, Pune

Symbiosis Law School is known for its innovative approach to legal education and offers interdisciplinary programmes in Environmental Law, fostering critical thinking and analytical skills among students.

Gujarat National Law University, Gandhinagar (GNLU)

GNLU provides specialised courses in Environmental Law, emphasising research and advocacy skills to address complex environmental challenges and contribute to sustainable development efforts.

Siksha 'O' Anusandhan University, Bhubaneswar

Siksha 'O' Anusandhan University offers comprehensive programmes in Environmental Law, integrating theoretical knowledge with practical experiences to prepare students for diverse career opportunities in the field.

Eligibility Criteria for Admission

Embarking on a journey in Environmental Law education requires a clear understanding of the eligibility criteria, which can vary from one programme to another and from one law school to another across India.

Eligibility for UG Courses: For degree and diploma courses at the undergraduate level, candidates typically need to have completed their Class 12 education from a recognised board with a minimum aggregate score ranging from 50% to 55%.

For certificate courses at the undergraduate level, candidates should have completed their Class 10 or Class 12 education from a recognised board.

Eligibility for PG Courses: At the postgraduate level, candidates aiming for degree and diploma courses in Environmental Law should possess an undergraduate law degree from a recognised university with a minimum aggregate score ranging from 45% to 55%.

Popular Entrance Exams

Admissions to Environmental Law courses in India often hinge on performance in standardised entrance exams. Some of the popular exams accepted by Environmental Law colleges include:

CLAT (Common Law Admission Test): Conducted by the Consortium of NLUs, CLAT is a national-level exam for admission to 5-year integrated LLB (UG) and one-year LLM (PG) courses. The consortium determines seat allocation based on CLAT reservation criteria.

CUET (Common University Entrance Test): CUET is an all-India level entrance exam conducted by the National Testing Agency (NTA). It serves as the gateway to UG courses offered across participating institutions. Originally conducted in a paper-pencil-based mode by the UGC, CUET now operates in a computer-based mode for a duration of two hours.

Popular Job Roles and Responsibilities

Environmental law professionals play a crucial role in addressing environmental issues, ensuring compliance with regulations, and advocating for environmental protection. Here are some of the top job profiles and their associated responsibilities:

Environmental Lawyer/ Attorney

- Represents clients in legal matters related to environmental issues, including pollution, land use, conservation, and regulatory compliance.
- Conducts research, analyse case law, and prepare legal documents such as briefs, pleadings, and contracts.
- Advocates for clients in court proceedings,

Crucial Role of Environmental Laws

In the pursuit of sustainable development, the concept of environmental rule of law emerges as a fundamental pillar, intertwining environmental needs with principles of fairness, accountability, and justice. It establishes the framework for effective environmental governance, ensuring that rights are respected, obligations are fulfilled, and actions are guided by universal moral values and ethical norms. Let's explore why the rule of law in environmental matters is vital for achieving equity and advancing Sustainable Development Goals (SDGs), ensuring fair access, and safeguarding socio-economic rights.

Promoting Equity Through SDGs: The Sustainable Development Goals (SDGs) serve as a roadmap for a more sustainable and equitable future. However, realising these goals necessitates robust legal frameworks and mechanisms to tackle environmental challenges effectively. Environmental rule of law ensures that laws are enacted, enforced, and adjudicated impartially, laying the groundwork for equitable access to resources and opportunities for all.

Ensuring Fair Access and Rights-Based Approach: At the core of environmental rule of law lies the assurance of fair access to resources and the protection of rights, particularly for marginalised communities. Upholding the rule of law in environmental matters ensures that decisions are made transparently, inclusively, and in alignment with international human rights standards. This approach safeguards vulnerable populations, including women and girls, from bearing disproportionate impacts of environmental degradation.

Protecting Socio-Economic Rights: Environmental degradation exacerbates poverty and social disparities, posing significant threats to socio-economic rights. Conflicts over natural resources further exacerbate these challenges, especially in conflict and post-conflict settings. Environmental rule of law provides a framework for sustainable resource management, transparent governance, and conflict resolution, thereby protecting socio-economic rights and fostering peace and justice.

Watershed Moments that Shaped India's Environmental Legal Framework

Vellore Citizens Welfare Forum v. Union of India (1996): In this landmark case, the Supreme Court of India emphasised the "polluter pays" principle. It held that industries causing environmental pollution must bear the cost of remediation and compensate affected communities. This decision strengthened environmental enforcement and accountability.

Taj Trapezium Case (2000): Concerned about the deteriorating condition of the Taj Mahal due to air pollution, the Supreme Court established the Taj Trapezium Zone (TTZ) around the monument. The court imposed strict regulations on industries, vehicular emissions, and construction activities within the TTZ to protect this iconic heritage site.

MC Mehta v. Union of India (1986): MC Mehta, an environmental activist, filed a petition against the pollution caused by hazardous industries in Delhi. The Supreme Court ordered the closure of polluting industries and mandated the use of cleaner technologies. This case set a precedent for environmental litigation in India.

Oleum Gas Leak Case (1987): The Bhopal gas tragedy, one of the world's worst industrial disasters, led to the leakage of methyl isocyanate gas from a Union Carbide pesticide plant. The legal battle sought compensation for victims and highlighted the need for stringent safety regulations and corporate accountability.

Forest Rights Act (2006): The Forest Rights Act recognised the rights of forest-dwelling communities, including tribal and indigenous groups, over forestland. It aimed to correct historical injustices and promote sustainable forest management. The act empowered local communities to protect their environment and traditional livelihoods.

Vedanta Mining Case (2013): The Supreme Court cancelled Vedanta Resources' bauxite mining project in Niyamgiri Hills, Odisha. The court upheld the rights of indigenous Dongria-Kondh tribes and their cultural and environmental concerns. This decision reinforced the importance of community consent in natural resource extraction.

Ganga Pollution Cases: Over the years, various legal battles have been fought to clean the Ganges River. The courts have issued directives to control industrial effluents, sewage discharge, and unauthorised constructions along the riverbanks. These cases highlight the ongoing struggle to restore the sacred Ganga to its pristine state.

Goa Mining Ban (2018): The Supreme Court suspended iron ore mining in Goa due to environmental violations. The ban aimed to protect fragile ecosystems, prevent illegal mining, and ensure sustainable resource use. It underscored the need for responsible mining practices.

F. No. 2/22/2010-Estt.

Dated 14-05-2024

Sub:-Filling up of the vacancy of Statistical Investigator in the Directorate of Arecanut and Spices Development by Composite Method (deputation plus promotion).

It is proposed to fill up a vacancy of **Statistical Investigator** in the Directorate of Arecanut and Spices Development, Calicut, a subordinate office of Ministry of Agriculture & Farmers Welfare (Department of Agriculture & Farmers Welfare), Government of India. The vacancy is in the pay scale of Rs.9,300-34,800/- PB-2 with grade pay of Rs. 4200/- (pre-revised), Pay Matrix Level-6 (Revised as per 7th CPC) and the vacancy is a GCS Group B Non-Gazetted, Non-Ministerial post. The headquarters is at Calicut. The vacancy is to be filled by Composite Method (deputation plus promotion) from amongst officers of the Central Government-

(A) (i) Holding analogous post on regular basis in the parent cadre of department; or (ii) With six years service in the grade rendered after appointment thereto on a regular basis in posts in pay band-I, Rs. 5200-20200 plus grade pay of Rs. 2800 (Pre-revised) or equivalent in the parent cadre or department; and

(B) Possessing the following educational qualifications and experience:

(i) Post Graduate Degree in Economics or Statistics of Mathematics or Commerce from a recognised University or Institute;

(ii) Two years' experience of collection, compilation, analysis and interpretation of statistical data.

(iii) Departmental Statistical Assistant in pay band -I, Rs. 5200-20200 plus grade pay of Rs. 2800/- with six years regular service in the grade will also be considered along with outsiders and in case he or she is selected for appointment to the post, the same shall be deemed to have been filled by promotion.

Note 1: The departmental officers in the feeder category who are in direct line of promotion shall not be eligible for consideration for appointment on deputation. Similarly, deputationists shall not be eligible for consideration for appointment by promotion.

(Period of deputation including period of deputation in other ex-cadre post held immediately preceding this appointment in the same or some other organisation or department of the Central Government shall ordinarily not to exceed 3 years. The maximum age limit for appointment by deputation shall not be exceeding 56 years as on the closing date of receipt of applications).

Note 2: For the purpose of appointment on deputation basis, the service rendered on regular basis by an officer prior to 01.01.06 or the date from which the revised pay structure based on the 6th CPC recommendations has been extended, shall be deemed to be service rendered in the corresponding grade pay or pay scale extended based on the recommendations of the Commission except where there has been merger of more than one pre-revised scale of pay into one grade with common grade pay or pay scale and where this benefit will extend only for the post for which that grade pay or pay scale is the normal replacement grade without any upgradation. It is requested that applications (in duplicate) in the given proforma along with complete and up-to date confidential reports/APAR (photocopies of the ACRs/APARs to be attested by an officer not below the rank of Under Secretary) of all eligible officers who could be spared in the event of their selection may kindly be forwarded to the undersigned so as to reach this Directorate within 15 days from the date of publication of this advertisement. The officers applied for the post shall not be permitted to withdraw their application at a later stage. While forwarding the applications, it may also be verified and certified that the particulars furnished by the officer are correct and that no vigilance case is either pending or contemplated against them and no major/minor penalty has been imposed on them during the last ten years. APPLICATION WHICH ARE NOT IN THE PRESCRIBED FORMAT AND ARE NOT RECEIVED WITHIN THE STIPULATED PERIOD OR ARE NOT ACCOMPANIED WITH COMPLETE AND UP-TO-DATE CR DOSSIERS, VIGILANCE CLEARANCE, INTEGRITY CERTIFICATE OR STATEMENT SHOWING MAJOR/MINOR PENALTY, IF ANY IMPOSED ON THE OFFICER DURING THE LAST 10 YEARS ARE LIABLE TO BE REJECTED.

- Duly filled complete application form with bio-data and one set of self-attested copies of Mark sheets/Certificates (10th onwards), Caste Certificate, Experience certificates, publications, if any addressed to **The Director, Defence Geoinformatics Research Establishment (DGRE), Him Parisar, Sector 37A, Chandigarh (UT)** should be brought at the time of Walk-in interview along with original documents and a recent passport size photograph, duly affixed on the application. The candidates working in Govt./Public Sector Undertaking/ Autonomous Bodies should bring NOC from their employer at the time of walk-in-interview.
- **Application form can be downloaded from the website: www.drdo.gov.in/whats-new**
- Incomplete / partially filled applications would not be accepted.
- The selection through walk-in interview will be purely provisional and subject to verification of documents and original certificates. The candidature will be rejected if any mismatch/canvassing is noticed in details regarding qualification, discipline, percentage of marks or non-fulfillment of any specified criteria at the time of joining.
- Maximum age 28 years for JRF and relaxation in age for 05 years for SC/ST and 03 years for OBC as per Govt. Rules.
- For field data collection, the selected person will have to regularly visit and stay in the snow bound, glaciated region of Himalaya, as per requirement.
- The positions are purely temporary. The offer of fellowship will not confer any right for regular appointment /absorption in DRDO. The period of fellowship will not count for the purpose of seniority, other Govt. benefit in DRDO in case of appointment at a later date.
- The tenure of Junior Research Fellowship is initially for a period of two years or co-terminus with the project whichever is earlier.
- The fellowship may be terminated at any time during the tenure with a prior notice of one month.
- Desirous candidates appearing for a walk-in interview are required to report at DGRE, Chandigarh as per the following schedule: -
 - (i) Reporting time would be **08:30 AM** and applications would be accepted up to **10:00 AM**.
 - (ii) Initial screening and verification of testimonials would be done between 10:00-11:00 AM on the respective interview date.
 - (iii) Interview of the screened/shortlisted candidates would take place from 11:00 AM onward.

GENERAL CONDITIONS

1. One candidate can apply only for one fellowship as per his/her essential and desirable qualification.
2. The number of fellowships may increase or decrease depending upon the prevailing requirements.
3. No govt. accommodation would be provided by the organization to the candidates.

4. **No TA/DA** will be paid for attending the interview/joining, irrespective of the selection.
5. The candidates shall be shortlisted for the interview on the basis of criteria in order of preference:-
 - (i) Score of national written test of NET/GATE.
 - (ii) Percentage of marks obtained in minimum qualifying degree (will be considered only when a candidate has not appeared in NET/GATE).

Continued from page 12

IMPORTANT NOTES

NOTE (1)	The above pay bands carry other allowances admissible as per Government of India rules.
NOTE (2)	With regard to age limit, the crucial/reckoning date shall be the last date of receipt of applications as mentioned in the advertisement.
NOTE (3)	The post of Internal Audit Officer shall be filled up on Deputation for a maximum period of three (3) years. The deputation shall be on the standard terms of deputation contained in DoP&T O.M. No. 2/29/91-Estt.(Pay.II) Dated 05.01.1994 as amended from time to time [read with DoP&T O.M. No. 6/8/2009-Estt.(Pay.II) Dated 17.06.2010].
NOTE (4)	Age prescribed as above is for general category applicants. Relaxation of upper age limit shall be admissible as below: i) Upto 5 years for Government servants in accordance with the instructions or orders issued by the Central Government (for all Group-A & B level posts). ii) For departmental candidates upto 40 years in accordance with the instructions or orders issued by the Central Government. iii) Upto 5 years for applicants belonging to Scheduled Castes & Scheduled Tribes and 3 years for applicants belonging to OBC (Non-Creamy Layer) for such reserved post(s), if any, in addition to relaxations at (i) & (ii) above, wherever applicable. iv) Up to 10 years for Persons with Disability (PWD) in addition to relaxations at (i), (ii) & (iii) above, wherever applicable. v) The age relaxation as above shall not be admissible for the applicants (SC/ST/OBC) against the unreserved (UR) post(s). However, this will be admissible to candidates belonging to PWD categories. vi) Further, age relaxation (in addition to relaxations as above) may also be considered for internal candidates (working in Tezpur University in various capacities on temporary employees with pay scale under different Govt. of India / UGC Schemes. vii) Age relaxation as provided by Govt. of India to all other categories of citizens such as Ex-serviceman, etc. shall also be admissible.
NOTE (5)	As per the Government of India's latest orders, Personal Interview for all positions except for Group-A has been discontinued at Tezpur University w.e.f. 01.01.2016. Accordingly, the merit of the candidates will be determined according to the requirements of qualification(s), etc., as prescribed in the advertisement and written test / skill test (where required) as per the provisions of DoPT, Government of India, Rules. Accordingly, details of Personal Interview and / or Written Test / Skill Test / overall evaluation shall be notified in due course.
NOTE (6)	Recruitment for all the posts as advertised here shall be subject to the provisions under the Ordinance No. 33 (Tezpur University Cadre Recruitment Rules for Non-teaching and Other Academic Posts 2022) and approval of the Ministry of Education/ UGC.

Application Fee:

A non-refundable application fee of **Rs. 1,000/-** (Rupees one thousand only) for the post of Registrar and **500/-** (Rupees five hundred only) for the other posts. SC/ST/PWD categories are exempted. **Mode of payment:** Through online bank transfer, for which details are as below:

Account Name: Tezpur University Recurring

Savings Bank Account No. 37854250831

IFS Code: SBIN0014259

Bank Name & Branch: State Bank of India, Tezpur University Branch, Napaam, Tezpur-784028, Assam

Applicants must submit copy of the e-generated receipt of the payment along with the hard copy of the application.

Mere fulfilment of minimum eligibility criteria shall **not entitle** a person for consideration. The decision of the Screening Committee(s) for short-listing of candidates shall be final and binding. The University reserves the right to fill up or not to fill up any of the vacancies.

After submission of the **ONLINE** application in the portal, a **duly signed hard copy** (pdf) of the completed application(s) must be submitted to **"The Registrar, Tezpur University, Tezpur-784028, Assam"** along with all necessary enclosures including the proof of submission of application fee and **"No Objection Certificate (NOC)"**, wherever applicable, **by the last date 25.06.2024**. The envelope containing the application should be superscribed **"Application for the post of ... (name of the post), Advt. No. 05/2023"**.

Candidate(s) willing to apply for more than one post shall submit separate applications and fees.

Application(s) received after the last date or incomplete in any form or without the application fee **shall be summarily rejected**. Those in employment must submit 'No Objection Certificate' from the concerned employer. However, one may send a copy of the application as **"ADVANCE COPY"** within the closing date. In such a case, the original application forwarded by the employer and / or the "NOC" should reach the undersigned **within ten (10) days from the last date of submission of applications.**

Applicants are advised to refer to the details of the relevant subject / field of specializations for each of the Departments. SPECIALISATION IS PRESCRIBED FOR THE UN-RESERVED POST(S) OF ASSISTANT PROFESSOR ONLY.

PART-B

DETAILS OF MINIMUM QUALIFICATIONS AND OTHER REQUIREMENTS

1. For the faculty position(s) under the Departments of (i) Civil Engineering, (ii) Computer Science & Engineering, (iii) Electrical Engineering, (iv) Electronics & Communication Engineering, (v) Design, (vi) Food Engineering & Technology, (vii) Mechanical Engineering and (viii) Business Administration:

Position	Minimum educational qualifications and some other requirements
Professor	<p>A) Ph.D. degree in relevant field (detailed below separately) and First Class or equivalent at either Bachelor's or Master's level in the relevant branch (detailed below separately). AND</p> <p>B) Minimum of ten (10) years of experience in teaching / research / industry out of which at least three (03) years shall be at a post equivalent to that of an Associate Professor. AND</p> <p>C) At least six (06) research publications at the level of Associate professor in SCI journals/UGC/AICTE approved list of journals and at least two (02) successful Ph.D. guided as Supervisor/Co-Supervisor till the date of eligibility of promotion. OR</p> <p>At least ten (10) research publications at the level of Associate professor in SCI journals / UGC / AICTE approved list of journals till the date of eligibility of promotion.</p>
Associate Professor	<p>A) Ph.D. degree in relevant field (detailed below separately) and First Class or equivalent at either Bachelor's or Master's level in the relevant branch (detailed below separately). AND</p> <p>B) Minimum of eight (08) years of experience in teaching / research / industry out of which at least two (02) years shall be post Ph.D. experience. AND</p> <p>C) At least six (06) research publications in SCI journals/UGC/AICTE approved list of journals.</p>
Assistant Professor	<p>For Engineering / Technology: B.E. / B.Tech. / B.S. and M.E. / M.Tech. / M.S. or Integrated M.Tech. in relevant branch (detailed below separately) with first class or equivalent in any one of the degrees.</p> <p>For Design: Bachelor's degree in Design / any branch of Engineering & Technology with First Class or equivalent and Master's Degree in Design with First Class or equivalent.</p> <p>The Academic score as specified under UGC Regulations, 2018, in Appendix II (Table 3A) for Universities, shall be considered for short-listing of candidates for interview only, and the selections shall be based only on the performance in the interview including a pre-interview presentation.</p> <p>NOTE: Existing incumbents recruited as a faculty with the basic minimum qualifications such as M. Sc. (Mathematics), M.Sc. (Biotechnology), M.Sc. (Electronics), M.Sc. (Computer Science & allied subjects), M.Sc. (Physics), M.Sc. (Chemistry), MCA, PGDM, AMIE / M. Com. and any other similar qualifications which were considered eligible at the time of recruitment or taken admission in such courses before publication of the AICTE Gazette dated 13th march 2010 shall be considered as eligible, subject to fulfilment of other eligibility criteria and higher qualifications as prescribed, if any, for various teaching positions.</p> <p>This is as per the Clause 7.5 of the AICTE Regulations 2019, published vide Gazette Notification No. 82 Dt. 01.03.2019.</p>

2. For the faculty position(s) under the Departments of (i) Applied Sciences (Physics, Chemistry, Mathematics), (ii) Environmental Science, (iii) Physics, (iv) Mathematical Sciences, (v) Molecular Biology & Biotechnology, (vi) Chemical Sciences, (vii) Cultural Studies, (viii) Hindi, (ix) Social Work, (x) Law, (xi) Assamese, (xii) Foreign Languages, (xiii) English, (xiv) Linguistics and Language Technology, (xv) Commerce, (xvi) Mass Communication & Journalism:

Position	Minimum educational qualifications and some other requirements
Professor	<p>A (i) An eminent scholar having a Ph.D. degree in the concerned/allied/ relevant discipline (detailed below separately), and published work of high quality, actively engaged in research with evidence of published work with a minimum of ten (10) research publications in the peer-reviewed or UGC-listed journals and a total Research Score of one hundred and twenty (120) as per the criteria given in Appendix II, Table 2 of UGC Regulations, 2018.</p> <p>(ii) A minimum of ten (10) years of teaching experience in university/ college as Assistant Professor/Associate Professor/Professor, and/or research experience at equivalent level at the University/National Level Institutions with evidence of having successfully guided doctoral candidate. OR</p> <p>B. An outstanding professional, having a Ph.D. degree in the relevant/allied/applied disciplines (detailed below separately), from any academic institutions (not included in A above)/industry, who has made significant contribution to the knowledge in the concerned/allied/relevant discipline (detailed below separately), supported by documentary evidence, provide he / she has ten (10) years' experience.</p>

Position	Minimum educational qualifications and some other requirements
Associate Professor	<p>(i) A good academic record with a Ph.D. degree in the concerned/allied/ relevant disciplines (detailed below separately).</p> <p>(ii) A Master's Degree in the concerned / allied / relevant disciplines (detailed below separately) with at least 55% marks (or an equivalent grade in a point-scale, wherever the grading system is followed).</p> <p>(iii) A minimum of eight (08) years' of experience of teaching and/or research in an academic/research position equivalent to that of Assistant Professor in a University, College or Accredited Research Institutions / industry with a minimum of seven (07) publications in the peer-reviewed or UGC-listed journals and a total Research Score of seventy five (75) as per the criteria given in Appendix II, Table 2 of UGC Regulations, 2018.</p>
Assistant Professor	<p>A (i) A Master's Degree with 55% marks (or an equivalent grade in a point-scale wherever the grading system is followed) in a concerned/ relevant / allied subject in the concerned / allied / relevant disciplines (detailed below separately) from an Indian University, or an equivalent degree from an accredited foreign university.</p> <p>(ii) Besides fulfilling the above qualifications, the candidate must have cleared the National Eligibility Test (NET) conducted by the UGC or the CSIR, or a similar test accredited by the UGC, like SLET / SET or who are or have been awarded a Ph.D. degree in accordance with the University Grants Commission (Minimum Standards and Procedure for Award of M.Phil./Ph.D. Degree) Regulations, 2009 or 2016 and their amendments from time to time, as the case may, are exempted from NET/SET/SLET.</p> <p>Provided, the candidates registered for the Ph.D. programme prior to July 11, 2009, shall be governed by the provisions of the then existing Ordinances/Bye-laws/Regulations of the Institution awarding the degree and such Ph.D. candidates shall be exempted from the requirement of NET/SLET/SET for recruitment and appointment of Assistant Professor or equivalent positions in Universities/Colleges/Institutions subject to the fulfilment of the following conditions :-</p> <p>a) The Ph.D. degree of the candidate has been awarded in a regular mode;</p> <p>b) The Ph.D. thesis has been evaluated by at least two external examiners;</p> <p>c) An open Ph.D. viva voce of the candidate has been conducted;</p> <p>d) The Candidate has published two research papers from his/her Ph.D. work, out of which at least one is in a refereed journal;</p> <p>e) The candidate has presented at least two papers based on his/her Ph.D work in conferences/seminars sponsored/funded/supported by the UGC / ICSSR/ CSIR or any similar agency.</p> <p>The fulfilment of these conditions is to be certified by the Registrar or the Dean (Academic Affairs) of the University concerned.</p> <p>NOTE: NET/SLET/SET shall also not be required for such Master's Programmes in disciplines for which NET/SLET/SET is not conducted by the UGC, CSIR or similar test accredited by the UGC, like SLET/SET. Further, SLET/SET shall be valid as the minimum eligibility for direct recruitment to Universities/Colleges/Institutions in the respective state only. OR</p> <p>B. The Ph.D. degree has been obtained from a foreign university/ institution with a ranking among top 500 in the World University Ranking (at any time) by any one of the following: (i) Quacquarelli Symonds (QS) (ii) the Times Higher Education (THE) or (iii) the Academic Ranking of World Universities (ARWU) of the Shanghai Jiao Tong University (Shanghai).</p> <p>The Academic score as specified under UGC Regulations, 2018, in Appendix II (Table 3A) for Universities, shall be considered for short-listing of the candidates for interview only, and the selections shall be based only on the performance in the interview including a pre-interview presentation.</p>

3. For the faculty position(s) under the Department of Education:

Position	Minimum educational qualifications and some other requirements
Professor	<p>1) (a) A Master's Degree in Arts/Humanities/Sciences/Commrce and M. Ed. each with a minimum of 55% marks (or an equivalent grade in a point scale wherever grading system is followed), OR</p> <p>(b) M.A. (Education) with 55% marks (or an equivalent grade in a point scale wherever grading system is followed) and B. Ed. each with a minimum of 55% marks (or an equivalent grade in a point scale wherever grading system is followed)</p> <p>2) Ph. D. in Education/concerned/allied/relevant discipline and</p> <p>3) At least ten years of teaching experience in University department of education or College of Education of which a minimum of five years at the M. Ed./M.A. level with published work (minimum 10 publications) in the area of one's specialization.</p> <p>4) A total Research Score of one hundred and twenty (120) as per the criteria given in Appendix II, Table 2 of UGC Regulations, 2018.</p>
Associate Professor	<p>1) (a) A Master's Degree in Arts / Humanities / Sciences / Commerce and M. Ed. each with a minimum of 55% marks (or an equivalent grade in a point scale wherever grading system is followed), OR</p> <p>(b) M. A. (Education) with 55% marks (or an equivalent grade in a point scale wherever grading system is followed) and B. Ed. each with a minimum of 55% marks (or an equivalent grade in a point scale wherever grading system is followed)</p> <p>2) Ph. D. in Education / concerned / allied / relevant discipline and</p> <p>3) At least eight years of teaching experience as Assistant Professor in University department of education or College of Education, with a minimum of three years at the M. Ed./M.A. level and has published work (minimum 5 publications) in the relevant area of specialization.</p> <p>4) A total Research Score of seventy five (75) as per the criteria given in Appendix II, Table 2 of UGC Regulations, 2018.</p>

	wherever the grading system is followed) at the Master's level shall be the essential qualification for direct recruitment of teachers and other equivalent cadres at any level.
Note (vii)	(i) A relaxation of 5% of marks is provided at the Bachelor's as well as at the Master's level for the SC/ST/OBC/PWD category, for appointment as Assistant Professor for reserved category positions. (ii) A relaxation of 5% of marks is provided to the Ph.D. Degree holders who have passed their Master's Degree prior to 19th September 1991. (iii) Grade "B" in the UGC-7 point scale with letter grades, O, A, B, C, D, E & F at the Masters level shall be regarded as equivalent to 55% of the marks wherever the grading system is followed. (iv) A relaxation of the minimum marks at the PG level from 55% to 50% for appointment as Assistant Professor may be provided to the candidates who have cleared the JRF/NET examination conducted by UGC/CSIR prior to 1989, when the minimum marks required to appear for JRF examination were 50%.
Note (viii)	For the posts reserved for PWDs (if any), the minimum degree of disability is 40%.
Note (ix)	Candidates applying against posts reserved for OBC category must submit a valid (up-to-date) "Non Creamy Layer" certificate from the appropriate authority. Similarly, for EWS, the certificate must be up-to-date.
Note (x)	Excellent academic background, high quality publications, potential to get research funding from Government agencies and industries, appropriate academic professional activities undertaken, and a good innovative teaching record with documentary evidence will be some of the important criteria for the selection of faculty members.
Note (xi)	Ability to carry out interdisciplinary teaching and research will be considered a plus point.
Note (xii)	Appointed teachers shall be amenable to any other academic or administrative responsibilities in addition to their regular teaching and research activities.
Note (xiii)	At present, the UGC and the University rules require the following Teaching Load: Assistant Professor at least 16 hours, Associate Professor and Professor at least 14 hours per week. Teacher should also be prepared to teach all the basic courses in their subjects and related areas which may not necessarily be their specializations.
Note (xiv)	Candidates applying for the positions of Professor and Associate Professor shall submit their list of publications and reprints of publications along with the application.
Note (xv)	All the candidates called for interview shall bring their Research Scores on Performance Based Appraisal System as given in Part-C of the Application Proforma.

**IMPORTANT INFORMATION
(To be read carefully)**

- The Applicant must ensure that he / she fulfils the eligibility conditions for the post being applied for.
- Candidates who are desirous of applying for more than one posts, shall submit separate application for each post along with the application fee.
- Duly signed hard copy of online application for each post must be placed in **SEPARATE COVER** with the **name of the post and name of the Department clearly super-scribed on the envelope**. The University shall not be responsible for any misplacement, omission etc. if two or more applications are put in one cover by any candidate. Candidates should submit the application in the prescribed format along with the necessary enclosures as mentioned above.
- Candidates, already in service, should send their applications through proper channel or submit a 'No Objection Certificate'. An advance copy may be sent directly, if necessary. However, in such cases the candidates called for interview shall submit original applications duly forwarded by the competent authority of their institutions / the NOC, failing which they shall not be eligible for the benefits that may be admissible for such in-service candidates.
- A candidate, who has applied earlier informally and sent his/her biodata/academic vitae earlier to the Vice-Chancellor or any other competent authority of the University, must apply following the above procedures.
- Applications received after the stipulated date or found incomplete in any respect or with illegible writings may not be entertained and no further correspondence may be entertained in this regard.
- Candidates are urged to provide as much details of their academic accomplishments as possible by attaching self-certified copies of certificates, testimonials, brief write up on awards / honours / research achievements and citations index on their publications.

- Candidates should enclose photocopies of certificates as evidence of age, educational qualifications, experience etc.
- Candidates are advised not to enclose copies of papers which have been submitted but have not yet been published or have not been accepted for publication. These will not be entertained.
- Maximum age limit, if any, and qualifications will be taken into account as on the closing date mentioned for receipt of applications
- The University follows the Central Government list in the case of OBCs. Candidates claiming OBC should submit appropriate Certificate in the prescribed format. BC/MBC/SEBC certificates will be considered as OBC only if they submit appropriate certificate prescribed by the Government of India. Those who fails to submit the required OBC Certificate will be treated as General Category, subject to fulfilment of other conditions
- The relaxation and concessions to the candidates applying for the reserved category posts will be provided as per Rules of Govt. of India.
- The University reserves the right to fill any post or otherwise.
- The University reserves the right to consider a candidate in absentia as per ordinance of the University.
- The prescribed essential qualifications are the minimum and mere possession of the same does not entitle candidates to be called for interview. Where the number of applications received in response to an advertisement is large and it will not be convenient or possible to interview all the candidates, the University, at its discretion, may restrict the number of candidates to a reasonable limit on the basis of qualifications/experience higher than the minimum prescribed in the advertisement after a screening process through a duly constituted committee.
- List of candidates short-listed and not short-listed for Personal Interview shall be notified in the University website.** No correspondence will be entertained from candidates regarding postal delays, conduct and result of interview and reasons for not being called for interview.
- It may be noted that there is a scarcity of accommodation on the University campus. Therefore, the University may not be able to provide accommodation on the campus to any appointee.
- Canvassing in any form will disqualify the candidates.
- All Certificates, Degrees and other documents must be produced in origin at the time of interview, if called for. Failure to produce these may result in not interviewing the candidate.
- Application other than in prescribed format shall not be entertained.
- It is again emphasized that an application not strictly prepared as per instructions given above may be summarily rejected.
- The University reserves the right to alter/insert any corrections/additions in the advertisement/website in the event of any typographical error before the last date prescribed for receipt of applications.
- The University offers appointment with a validity period of thirty (30) days. Applicant, if selected and appointed, should be ready to join within the stipulated time as given in the appointment order. However, University reserves the right to consider for extension of time for joining beyond thirty (30) days on valid reasons.**
- A completed application should have the following:**
 - Duly filled-in application form in original which is to be downloaded from the University website.
 - Forwarding from the employer, if employed.
 - One true copy of the Birth Certificate.
 - One true copy of SC/ST/OBC/PWD Certificate, if applicable.
 - One true copy of NET/GATE or equivalent Certificate, if required.
 - One true copy of all academic Certificates and Degrees.
 - One true copy of all certificates indicating extent and duration of professional experience.
 - One true copy of any other supporting documents.
 - Copies of reprints of publications as mentioned above.
 - A set of 3 names of referees along with their postal address, e-mail address, fax number, office and residence telephone numbers, if available.
 - Any other document or documents as specified in the above notes/instructions.
 - Any additional documents to support the candidature.
- Hard Copy of applications with all required enclosures as stated above should be submitted to **The Registrar, Tezpur University, Napaam, Tezpur - 784 028, Assam, India**, within the last date as stated in first page of this advertisement.
- APPLICATION FEE (Non-refundable): Rs. 1,000/- (Rs. One thousand only); Nil for SC, ST, PWD.**
Mode of Payment: Through **Payment Gateway** (as provided in the CU-Chayan Portal)
Applicants must submit copy of the e-generated receipt of the payment along with the hard copy of the application.

Harbingers of Change ...

negotiations, and alternative dispute resolution processes.

- Provides legal counsel to businesses, government agencies, non-profit organisations, and individuals on environmental matters.

Environmental Policy Analyst

- Does research and analysis environmental policies, regulations, and legislation at the local, national, and international levels.

- Assesses the environmental impact of proposed policies and regulations and recommend strategies for improvement.

- Collaborates with policymakers, stakeholders, and advocacy groups to develop and implement effective environmental policies and programmes.

- Monitors and evaluate the implementation of environmental policies and propose revisions or amendments as needed.

Environmental Compliance Officer / Manager

- Ensures that businesses, industries, and government agencies comply with environmental laws, regulations, and permits.

- Conducts audits, inspections, and assessments to identify environmental compliance issues and risks.

- Develops and implement environmental compliance programmes, policies, and procedures.

- Coordinates with regulatory agencies, stakeholders, and internal departments to address compliance issues and mitigate environmental risks.

Sustainability Consultant

- Advises businesses, organisations, and government agencies on sustainable practices and environmental management strategies.

- Conducts environmental assessments, audits, and sustainability evaluations to identify opportunities for improvement.

- Develops and implements sustainability initiatives, including energy efficiency, waste reduction, and carbon footprint reduction programmes.

- Assists clients in achieving environmental

certifications, such as LEED (Leadership in Energy and Environmental Design) or ISO 14001.

Environmental NGO Lawyer/ Advocate

- Represents environmental non-profit organisations in legal proceedings, public hearings, and advocacy campaigns.

- Drafts and review legal documents, including petitions, complaints, and amicus briefs, to support environmental causes.

- Engages in public interest litigation to address environmental injustices, promote conservation efforts, and protect natural resources.

- Collaborates with other NGOs, community groups, and stakeholders to advocate for environmental justice and sustainable development.

Environmental Impact Assessment (EIA) Consultant

- Assesses the potential environmental impacts of proposed development projects, infrastructure initiatives, and land use activities.

- Conducts environmental impact assessments in accordance with regulatory requirements and industry standards.

- Identifies and evaluate potential environmental risks, hazards, and mitigation measures associated with project activities.

- Prepares EIA reports, documentation, and recommendations for project stakeholders, regulatory agencies, and decision-makers.

These job profiles represent just a few of the diverse career opportunities available to environmental law professionals. Depending on their interests, expertise, and career goals, individuals in this field can make significant contributions to environmental protection, sustainability, and social justice.

These cases demonstrate how legal interventions have shaped India's environmental policies, safeguarded natural resources, and promoted sustainable development. They serve as reminders of the critical role that legal mechanisms including environmental lawyers play in environmental protection and conservation.

CENTRAL BOARD OF IRRIGATION & POWER

Centre of Excellence, Plot no.21, Sec-32, Gurugram - 122 001
(Recognized as Category-1 Training Institute for providing training in the field of Hydro, Thermal, Transmission, Distribution and Renewable Energy by Ministry of Power, Government of India)

INDUSTRY ORIENTED & PLACEMENT LINKED 26 WEEKS POST GRADUATE DIPLOMA COURSE IN TRANSMISSION AND DISTRIBUTION SYSTEMS APPROVED BY CENTRAL ELECTRICITY AUTHORITY, MINISTRY OF POWER, GOVERNMENT OF INDIA

WHY YOU SHOULD JOIN?

The Indian Power Sector is changing substantially in its institutional arrangements for its regulation as well as the structure. Apart from technological and perception changes, major changes have been introduced in the Power Sector through Private participation, reforms and restructuring. It has further created a large demand for the trained persons in Electrical Utilities.

This is a Placement Oriented Engineering Program for those who desire to make a career in the Power Sector. On successfully undergoing this course, the Graduate Engineer will find immense opportunities of employment in Indian Power Sector.

ABOUT CBIP AND THE COURSE:

A prime organization set up by Govt. of India in 1927 providing services to Indian Power, Renewable Energy and Water Resources sector. Recognized as Category-I Training Institute by Ministry of Power, Government of India under Central Electricity Authority Regulations, 2010. The course content complies with the syllabus for Engineers for Operation and Maintenance of Transmission and Distribution Systems as per Safety and Electric Supply Regulations of CEA.

The training program comprises of 75% theory and 25% practical sessions. The main objective of the course is to create a technically and professionally trained manpower to make available for Power industry.

COMPANIES VISITED:

Many of our previous batch trainees are employed with reputed Organizations like Tata Projects, TATA Power DDL, Bajaj Electricals, Hyosung T&D, Toshiba T&D, ERDA, Taurus Powertronics, Noida Power (NPCL), Lumino Industries, Manav Energy, Nangia Andersen, Skipper Seil, GEPDEC, ABPS Infrastructure and many others.

IMPORTANT POINTS

ELIGIBILITY: Bachelor of Engineering or equivalent in Electrical, Electrical and Electronics, Electronics and Communication, Power Engineering or related branches from Recognized Universities/ Institutes.

AGE LIMIT: No Age Limit.

SELECTION CRITERIA FOR ADMISSION: On merit basis (Percentage of marks in 10th, 12th & BE/B.Tech and Personal Interview).

Merit list will be displayed on the website.

NO. OF SEATS: 60 (Sixty only)

FEES: Non-Sponsored Candidates- Rs. 1,00,000/-
Sponsored Candidates -Rs. 1,25,000/-

SPECIAL OFFER:

• Applicants with **Outstanding Academic Background** and having all through [10th, 12th, BE/ B.Tech] 75% marks with no career gap will get direct admission with 10% relaxation in course fees.

Selective deserving candidates may be offered with discounted fees based on Merit, CBIP will decide during Counselling.

IMPORTANT DATES:

• Last date for receipt of application forms in all respect extended to 14th June, 2024 based on requests received from candidates.

• Interview & Counselling through online mode: 18th June – 21st June, 2024.

• Commencement of the course : 15th July, 2024.

Continued from page 1

#GenerationRestoration Movement ...

Rajasthan and Maharashtra have worsened the condition of farmers.

Forest Conservation and Biodiversity

We understand that deforestation and illegal logging can threaten wildlife habitat. Examples like the destruction of mangrove forests in the Sundarbans and deforestation in the Western Ghats make it clear that more efforts are needed towards forest conservation. Wildlife species, such as tigers, elephants, and rhinos, are endangered.

Forest Area:

- India's forest cover was 23.7% in 2023 which is projected to increase by 24% in 2024.
- India increased forest cover by more than 2.2 lakh hectares in 2022, the highest rate in the world.
- In 2014, India's forest area was only 21.7%.
- "Mission Green India" initiative aims to plant 100 crore trees by 2030.

Biodiversity:

- India is home to 11% of the world's known species, including 8% of mammals, 13% of birds, 7% of reptiles, 6% of amphibians and 10% of fishes.
- India has set a target to conserve 12% of known species by 2024, up from 1% in 2018.
- India launched the National Biodiversity Strategy and Action Plan 2016-2030 in 2018, which aims to halt biodiversity loss by 2030.
- India has established many protected areas and national parks to preserve the diversity of flora and fauna.

Climate Change

India is also not untouched by the effects of climate change. Incidents like abnormal weather changes, flash floods, and heatwaves are on the rise. In 2023, floods wreaked havoc in the Kedarnath region of Uttarakhand, killing thousands of people and destroying property worth crores. Apart from this, cyclones in the Bay of Bengal and the Arabian Sea have also caused huge devastation in the coastal areas.

Renewable Energy

India is facing many problems in the field of renewable energy. One of the biggest problems they face is high costs, which may discourage investors. There is also the challenge of storage shortage and grid integration. Land use needs and policy uncertainty are also important problems. Also, lack of infrastructure, lack of awareness and lack of talent are some major problems associated with renewable energy.

- India aims to install 500 GW of renewable energy capacity by 2030.
- India had set a target of installing 30 GW of renewable energy capacity in 2023.
- India installed 175 GW renewable energy capacity in 2022, ranking fourth in the world.
- India installed 10.5 GW of solar power capacity in 2021, the second highest in the world.
- India has also started investing in Green Hydrogen production, which is considered the future of clean energy.

Waste Management

Every year, millions of tonnes of waste is generated, much of which is not properly managed. Plastic waste in particular has caused huge harm to the environment. India has taken several important steps to tackle plastic pollution. Many states have banned single-use plastics and promoted alternatives. Under this, special attention has been given to recycling and reusing plastic waste.

- The average level of PM2.5 in India is projected to reduce to 55 µg/m3 in 2024.
- The average level of PM2.5 in India in 2023 was 59 µg/m3, down from 64 µg/m3 in 2014.
- India launched the National Clean Air Programme (NAP) 2.0 in 2022, which aims to reduce PM2.5 and PM10 levels by 40% in 100 cities by 2024.
- India launched the National Ganga River Mission in 2021 with a target to clean 80% of the river basin by 2025.
- India has initiated several policies to promote the adoption of electric vehicles, which will help in reducing air pollution.
- India has also increased investment in Sewage Treatment Plants (STP) to reduce water pollution.

Theme of World Environment Day 2024 is 'Land Restoration, Desertification and Drought Resilience Land Restoration' - According to the United Nations Convention, 40 percent of the Earth's land has been destroyed, affecting half the world's population. Nearly half of global GDP is at risk.

Desertification - The incidence and duration of drought has increased by 29 percent since 2000 - without immediate action, drought could affect more than three-quarters of the world's population by 2050.

Drought Resilience - Land restoration is a key pillar of the UN Ecosystem Restoration Decade (2021-2030), a rallying call to protect and restore ecosystems around the world, which is essential to achieving the Sustainable Development Goals.

Worldwide Crisis

Amazon Rainforest, Brazil

The Amazon rainforest of Brazil is known as the 'Lungs of the Earth'. In 2023, deforestation in the Amazon broke the record of the previous ten years. The main reason for deforestation is to prepare land for agriculture and timber trade. This is not only destroying the habitat of local wildlife, but also causing huge emissions of carbon dioxide, which is further fueling climate change.

Australia Wildfires

The massive wildfires that broke out in Australia in 2020 attracted the world's attention. The fire incinerated millions of acres of land, destroyed thousands of homes and killed millions of wildlife. The intensity of the fire is due to climate change, with increased temperatures and drought conditions further exacerbating the crisis. It seriously affected Australia's ecosystems and raised serious questions about wildlife conservation.

California, United States

In 2023, the fire in California broke all previous records. The main cause of the fire is climate change, which promotes drought and heat waves. Additionally, water crisis is also a serious issue in California, where water scarcity is hampering agricultural and civil water supplies.

Melting of Glaciers

The melting of glaciers in the Arctic region is a clear sign of global climate change. According to scientists, Arctic ice is melting rapidly due to which the sea level is rising. Due to this, incidents of floods are increasing in coastal areas and people living there are being displaced from their homes. The Arctic's biodiversity is also at risk due to this melting, including polar bears and other creatures.

Desertification in Africa

Desertification has become a major problem in the Sahel region of Africa. The Sahel, which lies south of the Sahara Desert, is rapidly turning into desert due to climate change and uncontrolled agricultural activities. Water scarcity and declining land fertility in the region threaten the livelihoods of millions of people.

Air Pollution in China

China's big cities, such as Beijing and Shanghai, have long struggled with severe air pollution. In recent years, the Chinese government has taken several steps to reduce air pollution, but there are still dangerous levels of pollutants in the country's air. Air pollution is causing increasing health problems, such as respiratory diseases and heart disease.

Agents of Change

Where there are problems, we need solutions. When the problem is global then its solution will also have to be of global scale. Therefore, many new challenges as well as opportunities are being created in the field of environmental protection and sustainable development.

Green Jobs: Green jobs include jobs in areas such as environmental protection, renewable energy, water management and afforestation. These jobs include professions such as environmental engineer, solar energy technician, water conservation specialist and botanist. Green jobs not only contribute to environmental protection but also stimulate economic growth.

Research and Development: There are also many opportunities for research and development in the field of environment. Career options are available as scientists, researchers and environmental consultants. Apart from this, there are also employment opportunities in innovation and technological development to solve environmental problems.

NGOs and Social Work: Many Non-governmental Organisations (NGOs) are working in the field of environmental protection. Fields like social work, environmental education and community development are available for professionals working in these. Contribution can also be made to environmental awareness campaigns, tree plantation programmes and cleanliness campaigns through NGOs.

Eco-Tourism: There are many employment opportunities in the field of eco-tourism also. This includes eco-friendly tourist destinations, wildlife safari and ecological tourism. Eco-tourism promotes environmental conservation and aids in the economic development of local communities.

Ways to Invest in the Environment for Generation Restoration:

- **Reduce Use of Plastic:** Plastic is a major source of pollution.
- **Save Water:** Use less water and don't forget to turn off the tap.
- **Save Energy:** Use energy-saving bulbs and turn off lights when you leave the room.
- **Plant trees:** Trees purify the air and help fight pollution.
- **Use Public Transportation:** Help reduce vehicle pollution.
- **Recycle and Compost:** Reduce your waste and recycle or compost it.
- **Raise Your Voice:** Spread awareness about environmental issues and inspire others.
- **Use Electric Vehicles:** This will save fossil fuel and also prevent pollution.
- **Energy Efficiency of Buildings:** Everything from ventilation to air conditioning requires less energy.

BEST ENTRY FOR

ISSUE DATED 11-17 May 2024

Question: In our digital age, Artificial Intelligence (AI) has made great strides, but deepfakes are causing concerns. What do you think about their use for spreading misinformation? Can you see any positives? Share your thoughts on both the negatives and any benefits of deepfakes.

Hafsha Malwat, Ahmedabad

The emergence of deepfakes indeed presents a complex landscape with both negative implications and potential benefits.

Negatives:

1. Spreading Misinformation: Deepfakes can maliciously spread false information by convincingly altering videos of public figures, eroding trust in information sources and worsening existing issues of misinformation.

2. Erosion of Trust: Deepfakes erode trust in visual evidence, making it challenging to discern truth from fiction and fostering skepticism and uncertainty.

The misuse of deepfakes in politics exacerbates existing challenges related to misinformation and polarisation, as it becomes increasingly difficult for the public to discern genuine statements or actions from fabricated ones. This manipulation of information threatens the integrity of democratic societies and undermines the public's ability to make informed decisions.

3. Privacy Violations: Deepfakes can violate privacy by creating realistic fake videos or images of individuals in compromising situations without consent, raising serious ethical concerns and potentially harming the targeted individuals.

Positives:

1. Entertainment and Creative Expression: Deepfakes offer creative potential in filmmaking by seamlessly integrating actors into scenes and reviving historical figures for educational purposes, expanding storytelling and artistic expression.

2. Accessibility: Deepfake technology could enhance accessibility by creating sign language interpretation videos with realistic avatars or generating personalised content for individuals with disabilities.

3. Research and Development: Deepfakes can also drive Research & Development in the field of Artificial Intelligence, particularly in areas such as computer vision, natural language processing, and generative modelling. Deepfakes could be integrated into virtual reality experiences to simulate the consequences of environmental degradation.

The challenges posed by deepfakes have spurred efforts to develop more robust detection techniques and improve the understanding of how to create and manipulate digital media convincingly.

While the negatives of deepfakes are significant and warrant attention, it's essential to recognise that the technology itself is neutral-it's the intentions and actions of users that determine its impact. Efforts to mitigate the negative consequences of deepfakes must be balanced with fostering innovation and exploring the potential positive applications of this technology.

Indian Embassy Rescues 60 Nationals from Cambodia Job Scam

In a proactive move to safeguard its citizens from fraudulent employment schemes in Cambodia, the Indian Embassy facilitated the safe return of 60 Indian nationals on May 23. The rescue operation, executed in collaboration with Cambodian authorities, liberated the individuals from precarious conditions in Jinbei-4 on May 20. Efforts to address the plight of Indian nationals trapped in Cambodia are ongoing, with diplomatic channels actively engaged. A dedicated team of Embassy officials stationed in Sihanoukville is extending necessary aid to those in distress, urging others facing similar challenges to seek assistance promptly. Over 360 individuals have been repatriated thus far.

Andhra Born Gopi Thotakura Makes History as First Indian Space Tourist

Indian expatriate Gopi Thotakura etched his name in the annals of space exploration, becoming the first Indian space tourist. He joined the crew for Jeff Bezos' Blue Origin's NS-25 mission, marking a significant milestone for India's space aspirations. Shri Thotakura, hailing from Andhra Pradesh, embarked on the journey alongside five other crew members, including former Air Force Captain Ed Dwight. The mission, Blue Origin's seventh human spaceflight, aimed to advance the frontiers of space tourism while promoting the protection of Earth.

India Climbs 15 Position in WEF's Travel and Tourism Development Index

India has climbed to the 39th position in the World Economic Forum's Travel & Tourism Development Index 2024, while US topped the list. India also ranks the highest in South Asia among the lower-middle-income economies. Earlier, India was ranked 54th in 2021 index. India's significant leap in the rankings underscores its growing competitiveness in the global tourism landscape. The biennial index analysed the travel and tourism sectors of 119 countries, evaluating them on a range of factors and policies that foster tourism development.

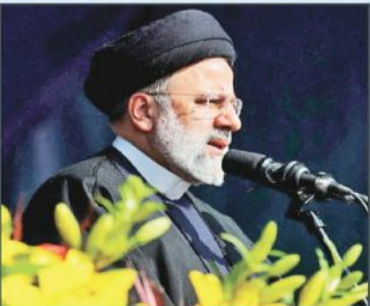

NCB Inaugurates Incubation Centre for Fostering Innovation in Building Materials

The National Council for Cement and Building Materials (NCB) has inaugurated its Incubation Centre (NCB-IC) that would facilitate collaboration among stakeholders on various projects ranging from Artificial Intelligence applications to sustainability initiatives like carbon capture and utilisation. The NCB Incubation Centre, equipped with advanced laboratories, aims to mentor startups and entrepreneurs in developing innovative and market-ready cement and building materials.

India Mourns Iran President's Death in Helicopter Crash

India observed state mourning on May 21 following the tragic demise of Iran's President Dr. Seyed Ebrahim Raisi and Foreign Minister Hossein Amir-Abdollahian in a helicopter crash. Flags across the nation were flown at half-mast in honor of the two leaders. Iranian President Dr. Seyed Ebrahim Raisi and his foreign minister met a tragic end on May 19 when their helicopter crashed in mountainous terrain shrouded in heavy fog. The incident occurred during their return from a visit to the border with Azerbaijan in Iran's northwest, claiming the lives of both leaders.

UN Report: Half of World's Pastures Degraded by Overuse, Climate Change

A United Nations report released by the United Nations Convention to Combat Desertification (UNCCD) highlights alarming degradation of natural pasture lands worldwide due to overexploitation and climate change impacts. The report warns that half of the world's natural pasture lands, including savannas, wetlands, deserts, and grasslands, have suffered degradation, jeopardising food supplies and livelihoods globally. The deterioration of rangelands, which comprise a sixth of the world's food supplies, poses a significant risk to food security. Factors such as population growth, urbanisation, and escalating food demand have led to overgrazing and conversion of natural pastures into intensive croplands, resulting in soil fertility decline and exacerbated drought conditions, according to the UNCCD. The report, based on surveys from experts in over 40 countries, revises previous estimates, indicating a more extensive and urgent issue than previously recognised.

Indian Bureaucrat becomes UN Chief's Disaster Risk Reduction Representative

Indian bureaucrat Shri Kamal Kishore has commenced his tenure as the Special Representative of the UN Secretary-General for Disaster Risk Reduction and the head of the United Nations Office for Disaster Risk Reduction (UNDRR). On May 20, the UNDRR welcomed Shri Kishore as he stepped into his new role, succeeding Mr. Mami Mizutori of Japan. Expressing his commitment, Shri Kishore emphasised the crucial role of UNDRR in global efforts to mitigate disaster risks amidst escalating vulnerabilities. With nearly three decades of experience in disaster risk reduction across various levels, including government, the United Nations, and civil society, Shri Kishore brings a wealth of expertise to his new position. He has notably served as the Head of India's National Disaster Management Authority (NDMA) since 2015 and led the Group of 20 (G20) Working Group on Disaster Risk Reduction during India's G20 presidency.

Vietnam's Appoints Top Police Officer as New President

Vietnam's parliament has elected Mr. To Lam as the country's new President. In accordance with the nation's one-party state protocols, lawmakers unanimously voted on a resolution endorsing Mr. Lam's election after a secret ballot, with Mr. Lam being the sole candidate for the position. As the head of the public security ministry, he has played a pivotal role in an anti-corruption campaign known as the "blazing furnace," aimed at combating widespread corruption. Following his election, Mr. Lam affirmed his commitment to continue the fight against corruption, emphasising his determination to tackle the issue.

ECONOMY

UN Raises India's 2024 Growth Forecast Citing Investment, Consumption Surge

India's economic outlook for 2024 received a boost as the United Nations revised its growth projections upward, citing robust public investment and resilient private consumption. The UN's mid-year update, titled World Economic Situation and Prospects, predicts India's economy to expand by 6.9 percent, surpassing earlier estimates of 6.2 percent. This aligns with the recent upward revision by the International Monetary Fund (IMF), signaling growing optimism about India's economic trajectory. Despite challenges posed by subdued external demand impacting merchandise exports, India's pharmaceuticals and chemicals sectors are anticipated to drive significant export growth, according to the UN report.

SPORTS

Deepthi Jeevanji Clinches Gold, Sets World Record at Para Athletics Championships

Indian para athlete, Deepthi Jeevanji made history on May 20, smashing the world record with a remarkable time of 55.06 seconds in the women's 400m T20 category at the ongoing Para Athletics World Championship 2024 in Kobe, Japan. Jeevanji's outstanding performance not only secured her a gold medal but also set a new benchmark in para athletics. Earlier in the qualifying rounds, she showcased her prowess by setting an Asian record with a time of 56.18 seconds, earning her a spot in the finals. This victory adds to Jeevanji's growing list of achievements, following her gold medal triumph in the women's 400m T20 event at the Asian Para Games 2023.

BCCI Lays Foundation Stone for Training Facilities in Northeast India

The Board of Control for Cricket in India (BCCI) has laid the foundation stone for state-of-the-art training facilities in the northeastern region of India. The initiative aims to bolster cricket infrastructure and nurture talent in the region. The indoor cricket academies, set to be established in Shillong, Itanagar, Kohima, Aizawl, Imphal, and Gangtok, will be equipped with world-class amenities including indoor nets, swimming pools, and fitness centers, will provide year-round training opportunities for budding cricketers.

WFI President Confirms: No Trials for Paris Olympics Wrestlers

Wrestling Federation of India (WFI) President Shri Sanjay Singh has officially announced that trials will not be conducted to select wrestlers for the Paris Olympics 2024. Instead, athletes who have secured Olympic quotas will directly represent India at the prestigious event. The decision puts an end to speculation surrounding the selection process for the Paris Olympics. Earlier, there were rumors suggesting the possibility of trials being held. However, the WFI's announcement clarifies the path for Indian wrestlers heading to Paris. India concluded its campaign at the World Olympic Wrestling Qualifiers with Aman Sehrawat and Nisha Dahiya securing the quotas in men's and women's wrestling categories respectively.
